A well-lit ambiance makes the perfect first impression.

Planters add a niche element to the living space.

The Journey

Resaiki is a relatively new venture which is standing firm in the interior designing sector in India. It has grown to offer various services that have led to serve the needs of its esteemed clients. The company has found its footing, especially in Delhi, Noida, Gurgaon, and

Meerut. What makes it different is the intention behind the company's projects which not only attempts to create the space of one's dreams by designing and decorating but it experiments with interiors, reaching beyond one's expectations.

The company is comprised of a set of skilled and trained individuals from the field of interior designing. The team

has been credited for creating an exotic living space while offering a warm welcome to those whom you love to see. The firm has a great reputation in establishing and fine-tuning the balance between the aesthetics and functionality of its designs and delivering the essentials on time. The team is known to relentlessly focus on the promised timelines and quality at every

stage of the project. The trajectory from project conceptualization to the final execution of the project is dealt with the usual precision and methodical approach of the creators.

Some of Resaiki's pioneer clients include multinationals like GIZ, Amway, PM-International, Samsung Electronics, Colorcon, Glatt, Dialogic Networks and renowned national companies like

Rakesh Group, Vividh Wires, Sharda Containers, RnF Technologies, Airox Technologies, Aditya Builders and Migsun Group. Resaiki has also worked with Jaypee Greens and Gaur City. They have also worked on various govt. and semi govt. projects providing them with unique designing solutions. Moreover, Resaiki has also worked on projects in Mum-

bai and Nagpur and also with the German government.

Let there be light!

Resaiki specializes in interior designing by being innovative without compromising the luxury of a space. Resaiki Interiors has also showcased a knack for interior lighting design. The designers are equipped with immense experience and a valid certifi-

Every nook and corner is well lit, adding aesthetic emphasis & glamour to the design.

ABOUT THE CREATOR

Kuntal Vyas Aggarwal, Founder & Design Head of Resaiki Interiors graduated from the prestigious Bhanuben Nanavati College of Architecture, Pune. She has 10 years of professional work experience, which is comprised of working with big designing firms. This culminated in creating her own venture Resaiki.

Along with a sensibility towards designing and her constant efforts to make spaces more functional, she has also been praised in creating spaces which are eco-friendly, sustainable and aesthetically vibrant. The clients' requirements are met by keeping in mind various design and aesthetic sensibilities. It is one of her strengths to address the design requirements of her clients through her innovative and timeless designs.

With her talented and creative team, she provides the design and technical solution from start to finish for all projects. Apart from interior designing, she has also studied electronics engineering from Nagpur University and is a certified Lighting Designer from Milan NABA. She has a vision and the capability to narrow down the gap between 'design' as an art form and 'technol-

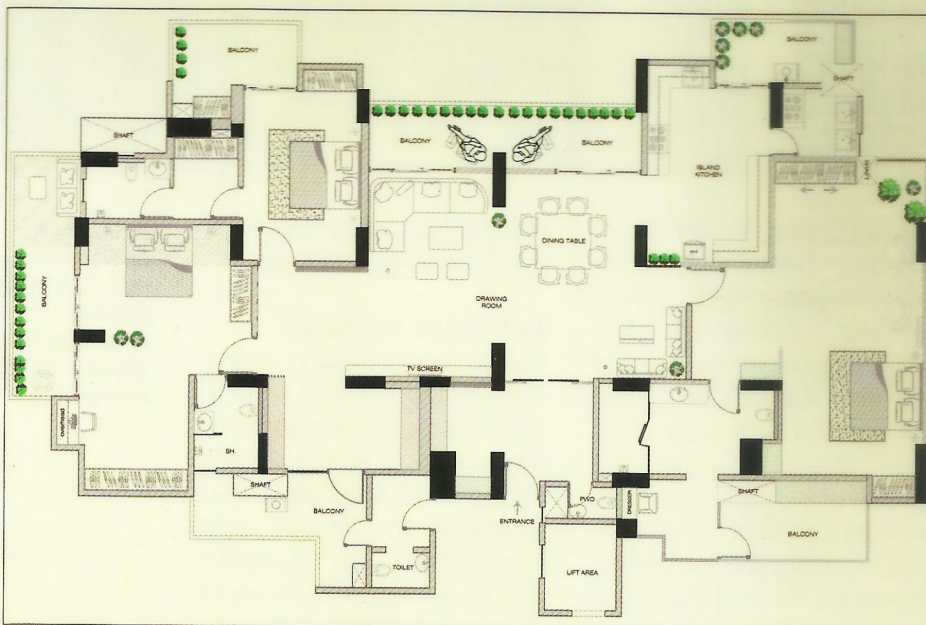

ogy'. She has also studied Parametric Design and Computation with the intent to deliver the best in terms of design processes, methodology, and workflow, for projects ranging across scales and disciplines. Needless to say her extremely sound academic background serves as the solid foundation on which her business stands today.

It is a designer's ability to understand arts and culture and successfully manifest projects. Kuntal likes to express her creativity via a multifaceted approach. She is an active theatre artist and has done plays for renowned production houses like Chilsag Chillies Theatre Company and 3 Belles Productions. She loves to perform Kathak

dance and has appeared as an artist and an actress in numerous shows. She is also a Reiki Grand Master and a certified Access Bar Consciousness Practitioner. These spiritual practices help her understand a client's requirement with a deeper perspective, hence offering her best to human spaces.

Resaiki is working towards a future which is not only beautiful but is also sustainable. Each project is attempting to strengthen its footing in the field of interior

designing, The company is creating spaces with a well lit and eco-friendly approach. Resaiki is among the premier service providers whose presence is felt worldwide. The company has been bestowed with some accolades in the design industry. It has also been awarded I-Gen Awards for the Top 50 young and promising designers. The company has also bagged TAPNR Awards for a dynamic interior designer by Ministry of Urban Development. Resaiki is committed to using the environment responsibly while offering innovative design solutions to its esteemed clients.

Minimal and breathtaking: space and light work together to create a homely abode.

apartment

Colours are enhanced through the careful interplay of natural light.

cation. Resaiki has exhibited that lighting is an essential aspect of every successful design project, whether it is commercial or residential. Along with the lighting, the designers focus on the sustainability element of the design and the green interiors which function as significant highlights in its projects. The brand focuses on customizing the interiors according to the needs of the clients. The end result is always beautiful as space tends to emit the emotional appeal behind the idea of the creation. 

The light makes a way in the bathroom by piercing the whites and the greys.
